

# Exemples de réalisations

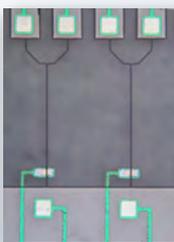

Lasers à semiconducteurs III-V

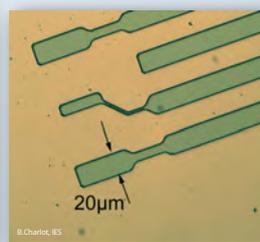

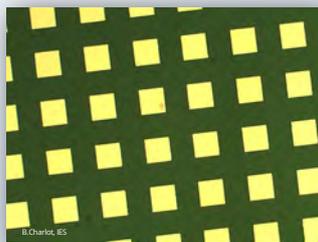

Microfluidique (SU-8)

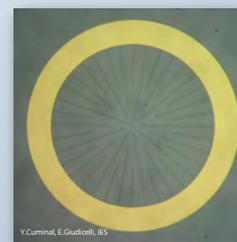

Réseau d'électrodes en microfluidique

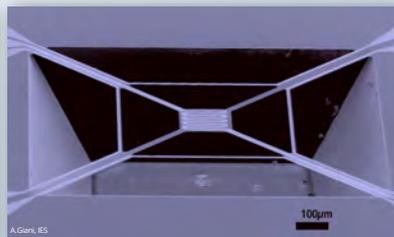

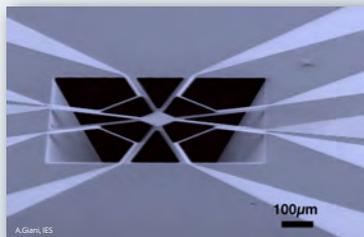

Polymères conducteurs (PEDOT:PSS)

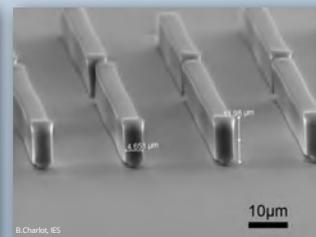

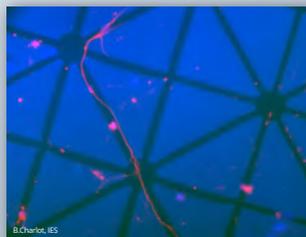

Cellule PV

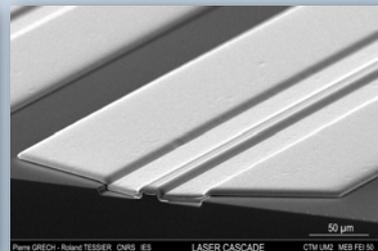

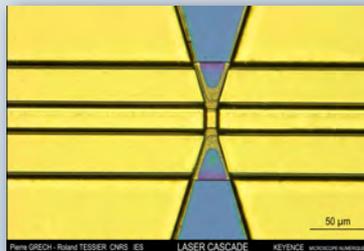

Accéléromètres MEMS (Micro usinage en volume)

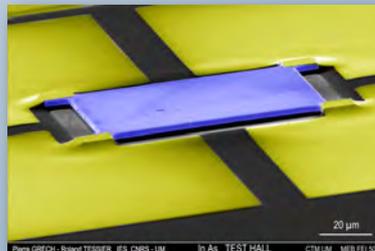

Lithographie douce et stamping

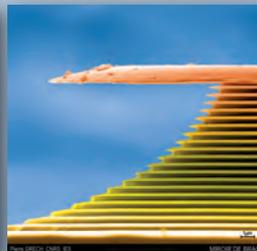

Laser Cascade

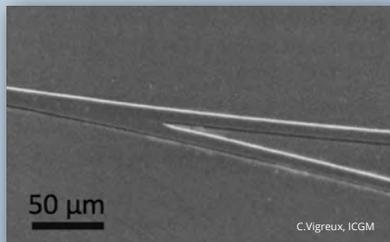

Effet Hall

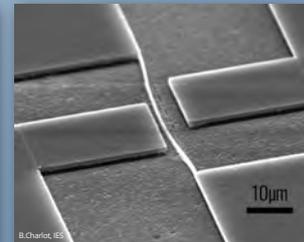

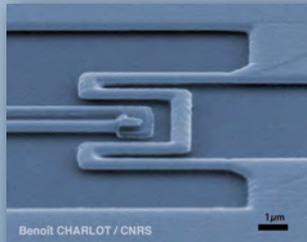

Miroir de Bragg

Guides d'onde infrarouge

Lithographie électronique

Centrale de Technologie  
en Micro et nanoélectronique
